

# GIRLS' EDUCATION DAY

Global Education Summit 2021

Girls' Education Challenge

## Ensuring All Girls Can Go to School

10 Events

26 July 2021 | 12:00-19:30 (BST)

At the end of July 2021, global leaders will come together to make 5-year pledges to support the Global Partnership for Education's work to help transform education systems in up to 90 countries and territories.

As part of this Global Education Summit, the Girls' Education Challenge will be convening a day of events, discussing and supporting the GPE case for investment in girls' education. These virtual events will look at evidence and recommendations to ensure that all girls can go to school in a post-COVID world.

An Overview Session led by the Girls' Education Challenge will launch the day. Our four keynote speakers include Sally Gear (FCDO), Jaime Oberlander (USAID Somalia), Antara Ganguli (UNGEI) and Elaine Unterhalter (UCL).

Over the rest of the afternoon, sessions will be led by organisations supporting marginalised girls (see below).

*In order to cater for North American time zones, a recording of the Overview Session will be played at the end of the day.*

### Programme and registration for individual sessions
